

"Architecture From The Inside Out"

RICHARD H. DODD AND ASSOCIATE

PRESENTATIONS

1. *"Evolution of Architectural Styles in Orange County 1776 - Present"*
2. *"The Bungalow Era in O.C. The embodiment of the Arts and Crafts Movement"*
3. *"Traveling the El Camino Real - the Founding of the California Missions"*

When it comes to remarkable homes, whether historic or contemporary, classically traditional or wildly exuberant, Orange County stands apart.

Richard H. Dodd AIA, an Orange County native has been chronicling the history of residential architecture in Orange County; starting with the Adobe Style in Mission San Juan Capistrano to unique structures, such as the remarkable Mushroom House or the Witches' House in Laguna Beach.

His monthly Architectural column in the Orange County Home magazine was singled out by the California Council of the American Institute of Architects for an Excellence in Education Award.

You can see the story also because he has taken it on the road with a visual trip through our county's architectural history. In a free presentation being offered to local service clubs, historic groups and other organizations, he charts the history of residential architecture in O.C. These homes tell stories about the development of Orange County communities into the world we know today.

Richard H. Dodd, AIA

Octavius Morgan Distinguished Service Award

Richard H. Dodd, AIA has been selected to receive the Octavius Morgan Distinguished Service Award for 2009 from the California Architecture Board. Each year, this prestigious award is presented to volunteers for their contribution to the profession and the people of California. Richard Dodd was one of two Southern California Architects receiving the award.

Architectural Styles – Orange County

The first comprehensive guide to the evolution of residential styles in Orange County. It is a story of how styles and methods of building evolved, how movements trickled in to our world, and how trend-setters and visionaries here helped set the standard for architecture around the world.
